___ Bring completed **New Client Intake Assessment** form (There is an abbreviated and a regular new client intake assessment form listed. Please don't do both. The abbreviated form is just fine, unless you think it would be more useful for me to have the longer form. Many of those questions I ask in the first appointment anyway but I don't typically have time to cover everything, which is why the longer form is an option.)

___ Bring completed **ROS** (review of systems) form

___ Bring completed **ROI** (release of information) form (The release of information form is only if there is a particular person you want me to be able to talk to, such as a therapist.)

___ Bring signed **HIPPA Email Consent** form

___ Bring signed **Consent to Treatment** form

___ Bring method of payment (cash, check or debit/credit card)
